

WHAT WE'RE ABOUT

American Icon Wheel Company is **made up of skaters** who skate everyday. Some of us have been skating for a couple of decades, so, we've gone through a lot of wheels. Lately, it seems as though we go through wheels a lot faster. This is probably due to the fact that some wheel companies have lost sight of their values and began following the corporate rule of finding the cheapest way to make products and selling those subpar products for a near 300% profit.

We do not subscribe to that philosophy!

At American Icon Wheel Company, we strongly believe in quality over quantity. Our goal is to create wheels that can stand up to the daily abuse that skating can hand out. All of our wheels are made from **50D flatspot resistant formula**. We offer a wide range of shapes and sizes to insure that we meet the needs of a wide range of skaters.

Whether you skate ledges, rails, gaps, ramps or pools, you can be sure that you will always be able to **Go Fast & Go Hard** on American Icon Wheels!
